*Randall S. Johnson, LC  
US Lamp, Inc.  
3600 Velp Ave., Suite 1  
Green Bay, WI 54313*

*Dear Mr. Johnson,*

*I am writing this letter to commend you and your associates on the work performed for our company.*

*Our building is approximately 6000 square feet and the lighting we had was not conducive for our mechanical need. We asked US Lamp to come in, look at what we had, and give us some suggestions and estimates. You then supplied us with a lightening proposal to include the payback in years, return on investment, and rebates. You also recommended an electrician, Rod Kuffel of Premier Electrical Services, to come out and make sure everything was up to code. There was a problem with some of the wiring done by the previous Electrician. You and Rod did a great job explaining the problem and the severity to us. When we met with the previous Electrician and Building Contractor to resolve the electrical issue, you made yourselves available to us so that the issue was clearly identified and resolved within reason. Your support and expertise with this situation was greatly appreciated. You also followed up with us shortly after the installation to make sure everything was working to our satisfaction.*

*Your dedication, timeliness, and follow through were much appreciated. We are glad we had the opportunity to work with US Lamp.*

*Sincerely,*

*Bob / Barb*
