To Whom It May Concern:

This is a letter of recommendation for US Lamp of Green Bay, Wisconsin. US Lamp has recently finished a complete lighting retrofit for our school over the past few months. We have found their company to be knowledgeable, responsive, and thorough in evaluating our lighting needs. Their company is very willing to work around our schedule and provide thorough analysis and implementation of lighting opportunities that exist.

Team Services of Appleton, Wisconsin is the installing electrical firm used by US Lamp. We have also found Team Services to be exemplary in working with our specific needs for installation. They are very willing to work around our schedule. Installation and cleanup has been done very professionally.

I would highly recommend US Lamp to any organization looking at energy saving lighting projects.

Please feel free to contact me, should you have any additional questions.

Sincerely,

Barbara B. Natelle
