

Helping America with its fundraising needs

September 11, 2008

Randall S. Johnson
US Lamp, Inc.
3600 Velp Ave, Suite 1
Green Bay, WI. 54313

Dear Randy,

My name is Del Hasmuk. I am head of production and facilities maintenance with Choice Products. We are a large fund raising company with locations in Eau Claire and Dunn counties here in Wisconsin and have been helping kids raise money for their schools and communities across the country for the past 25 years. We are also very focused on making the world a greener place to live; therefore we had a huge desire to make our two facilities as energy efficient as possible.

I started developing our lighting project with Jeremy Bellile in September of 2007. Your company's technical expertise and knowledge into the proper product were just a few compelling reasons we chose US Lamp. Jeremy's detailed research into the proper requirements for our facilities ensured the results would be exactly what we were expecting.

I appreciated the on-going communication from US Lamp and the continued feed back keeping me aware of the latest state-of-the-art energy efficient products. This information provided me the confidence to proceed with the projects for both of our facilities.

We are very pleased with the results in both the lighting quality and in the energy conservation the projects have provided. I look forward to a continued business relationship.

I would highly recommend US Lamp to any company and as a matter of fact, have already done so. The energy savings realized and reductions in pollution improved our operational efficiency and the environment. Our company is a strong proponent for both of these issues.

Thank you and Best regards.

Sincerely,

Del D. Hasmuk
