"MONTICELLO'S VALUES GROW WORLD READY CITIZENS"

September 21, 2005

Randy Johnson, President
U. S. Lamp, Inc.
3600 Velp Ave., Suite 1
Green Bay, WI 54313

Dear Randy,

I just wanted to thank you and Joe Daniels for the wonderful job revamping our lighting this summer.

The gyms look fantastic, and we are looking forward to seeing the energy savings on our future electric bills. The automatic sensors have already proven to be a wonderful convenience. Everyone appreciates both the quality of the light and the fact that there's no waiting for the lamps to fire up.

The shop and other areas addressed in this project are also benefiting from the improvements. Our immediate reaction to the new lights was, "How did we ever get along without them?"

On a personal level, I wanted to thank you for being so easy to work with. You lived up to every promise and expectation with very little disruption to our normally scheduled events. You were responsive to our needs, from the proposal phase to completion, including help obtaining shared savings assistance from Alliant Energy. It was a headache free experience, which is not often the case with projects of this scope.

Please feel free to use me as a reference. We would also welcome visitors who are considering making the switch to more efficient lighting.

It was a pleasure working with you!

Sincerely,

Karen Ballin,
District Administrator
