

October 11, 2011

Mr. Randy Johnson, President
U.S. Lamp, Inc.
3600 Velp Ave. #1
Green Bay, WI 54313-6503

To whom it may concern:

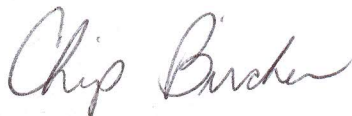

This letter is a recommendation of Randy Johnson (President, U.S. Lamp, Inc.) as a qualified and knowledgeable instructor of lighting technology, which you should utilize for future events.

On a recent tour that Mr. Johnson hosted for students from Northeast Wisconsin Technical College, students gained useful insight into current lighting technologies available in today's market. Mr. Johnson showcased new LED lights, luminaire fixtures and provided lighting demonstrations that offered students more in-depth perspective on lighting quality from specific products. Students really enjoyed learning about how to design lighting properly by balancing both light quality and energy savings.

Mr. Johnson offered an energetic and passionate presentation style, which kept students' attention. It was apparent that he was excited and enthusiastic about the field. He is also fluent with all aspects of lighting technology and frequently used the terminology that students are just learning about in class.

Mr. Johnson uses a professional yet engaging presentation style and was open to questions and discussions by all. The strongest impression that students gained from Mr. Johnson's was his sense of integrity. He always makes sure that his customers receive the best lighting solution.

Sincerely,

Chip Bircher
NWTC Energy Management Instructor
