To Whom It May Concern:

We contracted with US Lamp to do a lighting retrofit in our high school and elementary gyms. The energy efficiency was pointed out before we ever started the project. Given the timeliness of the project, we also went with an electrical contractor they recommended, Nass Electric of New London.

The improved lighting is great. Obviously, we have to wait for the energy bills to determine overall savings. The project came off without a hitch, in spite of the contractor having to work around basketball camps and summer leagues. I would do work with both again if the need arose.

If you have any questions please call me at 715-229-2151.

Sincerely,

Jim Friesen
District Administrator
