To Whom It May Concern:

I have found that Randy Johnson and the staff at US Lamp are very technically knowledgeable in helping locate and identify specialty medical and scientific lamps that Prevea Clinics use in their various equipment.

Our maintenance department also regularly uses US Lamp for our on-going lighting maintenance needs.

I would highly recommend US Lamp for lighting products as well as their technical expertise in locating the hard-to-find medical replacement lamps.

Sincerely,

A handwritten signature in blue ink that reads "Kathy Vannieuwenhoven".

Kathy Vannieuwenhoven, Senior Purchasing Agent
