US Lamp, Inc.
Attn: Randall S. Johnson, LC
3600 Velp Avenue, Suite 1
Green Bay, WI 54313

Dear Mr. Johnson

I would like to express my sincere thanks to you and the US Lamp, Inc. staff for the opportunity to work with you on our lighting project. In deciding to go forward with a project of this magnitude, we were looking for a company that would give us insight to our needs and follow it through until our goals were met. US Lamp, Inc. was the company we were looking for.

Your staff was able to give us the backbone information we needed to understand the type of system we should implement and how it would truly function. They also presented us with a quality warehouse design that is efficient and meets our lighting needs. The installation process was very thorough and I feel your staff proved their product expertise. All issues that arose were quickly addressed and insight was presented on any questions or concerns we had regarding the system.

Finally, our cost savings benefit from the new lighting system is seen daily. Our main objective was met and we still have the output we need to run our operation efficiently. I would highly recommend US Lamp, Inc. to anyone starting a project similar to ours. Please feel free to share this letter with other potential customers. I look forward to working with you on any future lighting projects that arise.

Sincerely,

Mike Schumacher, President
